

Stay in control of your accounts with up-to-the-minute notifications

Our dynamic notification service is designed for you and your business, by sending email or SMS notifications of account activity to the right people at the right time. Keep track of debits, credits, account detail changes and available balances as they happen. No need to log on to any electronic banking channel and find what you need, we'll send it right to you.

Designed for your business

- **Better cashflow management**
Know the instant funds move in your accounts.
- **Authorise changes**
Identify any unauthorised changes to your bank records e.g. cellphone numbers.
- **Identify threats**
Identify any unauthorised activity on your accounts immediately.
- **Keep your business mobile**
Keep track of transactional activities on your accounts from anywhere.
- **Improve service delivery**
Streamline your inventory control and goods dispatching.

Your notification will let you know:

- Transaction channel e.g. ATM, EFT, teller, etc.
- Transaction type e.g. payment or transfer
- Transaction amount
- Transaction reference
- Transaction location
- Transaction date and time
- Available balance

Notify me

- Receive notifications on specific accounts and transactions to be sent to multiple recipients.
- Create up to 9 999 notification instances with up to 10 recipients each.
- Choose to receive an email or SMS notification.
- Stay up-to-date with transaction types, values and your overall balances.

Get started and set-up your Transaction Information Notification Instances on NetBank Business now.

Customised for you

You can choose to receive notification for all activities on your accounts or customise them to meet your business requirements.
